

Digga tree planting augers are designed to drill a smaller diameter hole for the tap root and a larger secondary hole at the top for the root ball. The design of the cutting system will leave the hole walls rough not glazed, meaning the plant stock has the maximum chance of establishing.

## Features & Benefits

- Available sizes: 6" (150mm) /12" (300mm) to 18" (450mm) /36" (900mm) - 1200mm OAL
- Designed to easily dig and place trees and shrubs of all sizes
- Heavy duty construction
